

RRC 310s

Semi Automation Coater

RRC 310s Semi Automation Coater

- Suitable for all vegetable seeds and field crops.
- Excellent recovery
- Outstanding distribution
- No seed damage
- Easy to use
- The best quality/price ratio

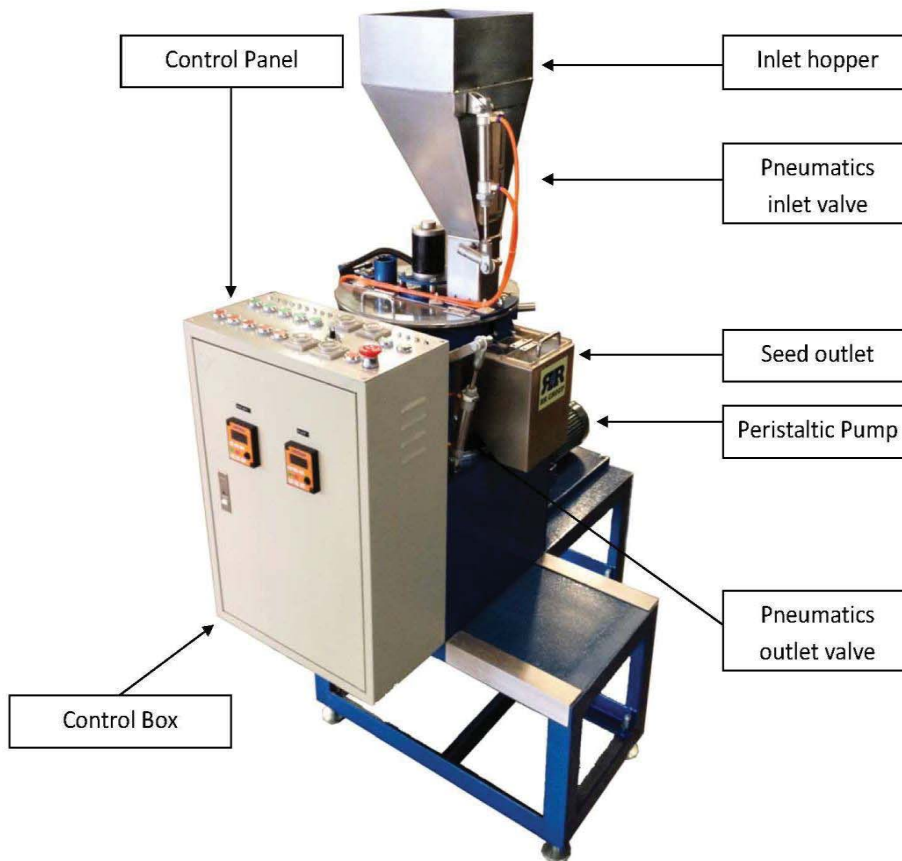

Technical Data

Mixing system	Rotor-Stator-Principle
Treatment distribution	Liquid by spinning disk, directly (manually), powder directly (manually)
Batch quantity	0.2 - 2 kg
Max. Capacity/Hour	10 - 100 kg/hour
Compressed air requirement	5 - 8 bar
Dimensions	W 820 mm./ L 1170 mm./ H 1500 mm.
Mixing chamber	310 mm (Ø) x 263 mm (h)
Total Weight	165 Kg.
Peristaltic pump	Optional

Power supply	Rotary disk	750 W, 220 VAC 50 Hz
	Spinning disk	100 W, 24 VDC
	Total power consumption	1200 W 220 VAC 1 Phase
	Adaptation to other power supplies are possible
