Agro 1201

Recommended Uses

Seedworx Agro 1201 is a seed film coating polymer design for broad acre crops such as maize.

Features & Benefits

- High shine and good gloss
- Strong colour strength
- High abrasion resistance
- Low dust-off profile
- Improves wet and dry seed flow
- Decreases wet and dry seed bridging

Premium all-in-one polymer containing colour and shine developed for abrasion resistance.

Coating Type				Properties					
Use	Film	Encrust	Pellet	Binding Capacity	Opacity	Finish	Flow Rating	Dust Control	Colour(s)
Finishing	Yes	---	No	High	High	Shiny	Very Good	Medium	R,G,B

Agro 1201

Characteristics

EPA40CFR180 compliant	No
Storage Temperature	1 – 35°C
Storage Instructions	Closed container, out of direct sunlight, protect from freezing where possible.
Shelf Life	12 months when stored correctly
Density	1.05 - 1.25

Application Guide

Seedworx Agro 1201 should be stirred before use as some settling may have occurred during transport and storage. For most applications Seedworx Agro 1201 should be diluted before use. Typical application rates are shown in the table below.

Seed Type	Economy Rates			Medium Rates			High Quality		
	Agro 1201	Water	Total	Agro 1201	Water	Total	Agro 1201	Water	Total
Maize	2.5	7.5	10	5	6	11	7	5	12

Rates are expressed in grams of product applied per kg of seed.

Table is for guidance only and any mixes should be tested before any large-scale application.
