
Introducing our latest member – Centor Europe

It is with pleasure that the Centor Group welcomes our latest member – Centor Europe.

As with our other Centor operations, Europe will deliver innovative, pure, reliable and sustainable film-coating solutions and additional products & services to the agricultural and seed related industry.

Centor Europe will be managed by Eric Juckers and Fiona van der Moere, who have a combined experience of 30 years in the seed industry. They have chosen ISF to announce the launch and both Eric and Fiona will be attending ISF, Hungary, from Monday 22nd May to Wednesday 24th May. We hope you can find time to come and say hello.

Eric brings more than 18 years' of experience in the seed industry; starting initially as a seed and coating technology research project leader and later crop specialist with INCOTEC International B.V. Past roles include International Account manager for Incotec analytical laboratory and R&D manager at Bakker Brothers seeds.

Fiona has just over 11 years of experience in the seed industry as International account manager at INCOTEC Europe B.V., predominantly in the Vegetable market. The last 3.5 years was spent as Key account manager to the largest vegetable customer / partner of INCOTEC. She has an agricultural background and studied International Agricultural Commerce and Marketing. She has built strong relationships and expanded sales with customers in Europe, mainly in the Netherlands, Germany, Hungary, and Scandinavia.

Vision Statement - Recognized as the Groups European centre of excellence in seed coating and related technology.

To contact them, call either Fiona at +31 61 288 2868 or Eric at +31 62 281 6326, or submit your enquiry to Info@centoreu.com or visit www.centoreu.com
